

BEWARE OF BANK PHISHING SCAMS

Received a text from your bank?
If it has a **clickable link**, it is a **scam!**

The clickable link would lead to a fake bank website to phish for your banking details.

FAKE

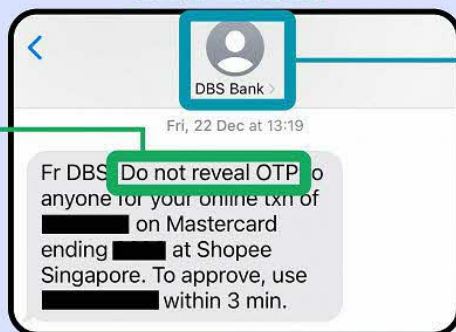

Banks **will never send clickable links** via SMS.

Banks **will always send SMSes in their name**, not in numbers.

REAL

Never **disclose your banking details** or **OTPs** to anyone.
